

Cyber Security

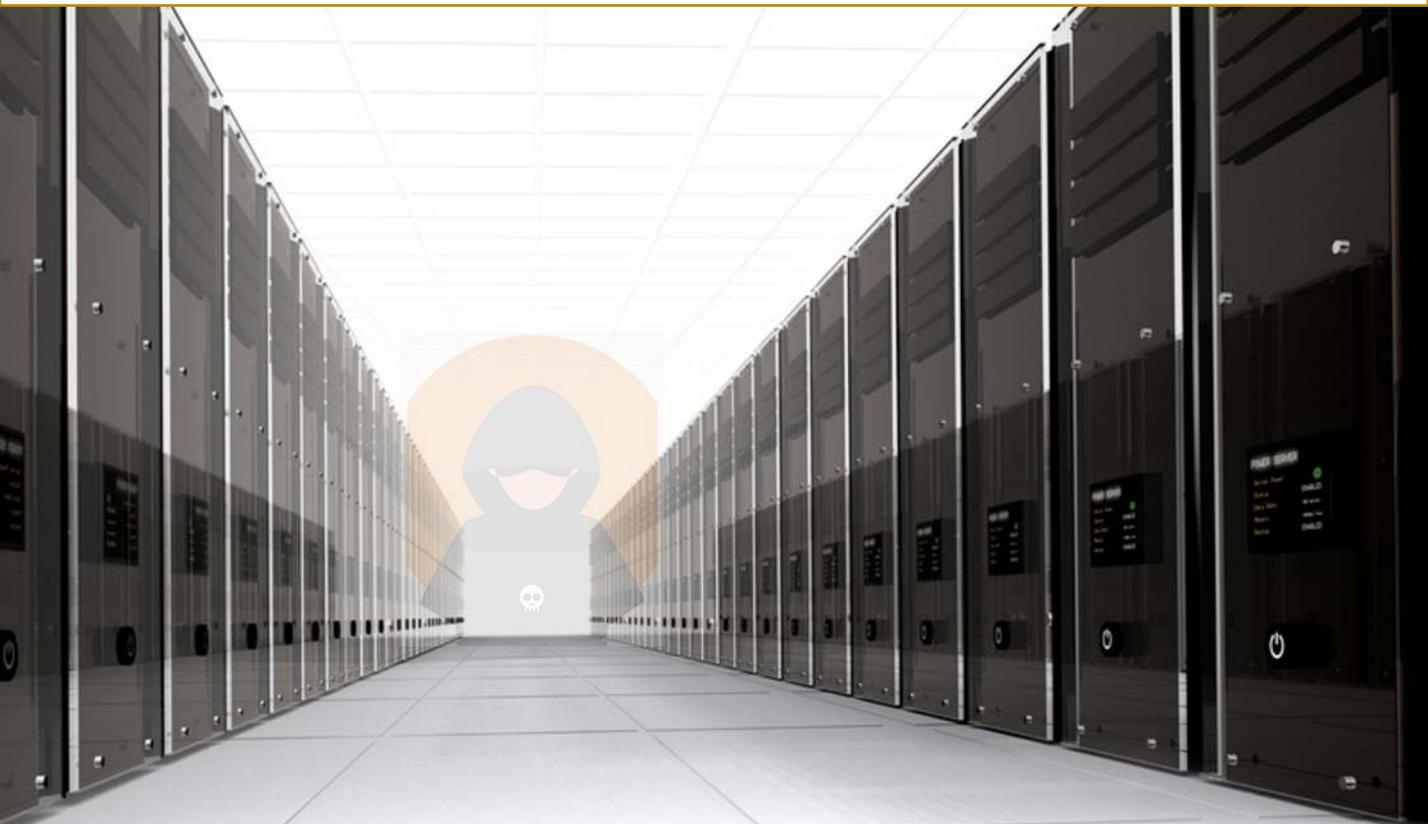

Which is
your point
weak?

Are you sure of **your**
security strategy?
Have you ever **checked your**
system for vulnerabilities?

the complex computer landscape
represents the battlefield of
 modern cyber attacks 

IT environments **are full of** dynamic assets:
in addition to physical servers,
organizations are adopting cloud and virtual
assets

It's time to do it!
*S.O.D. is your partner for
the Vulnerability Assessment
& Penetration Test*
